

Christopher J. Feehely, LEED AP Project Manager

CERTIFICATIONS

Level II Infrared Thermography
Level Certification
LEED Accredited Professional

Chris has more than 20 years of construction experience in building enclosure consulting and commissioning, quality control, and project management. Working as a building enclosure consultant, he has applied years of construction experience to refine his ability to identify failures in enclosures and his experience with forensic investigations allows him to provide informed provide feedback on enclosure design consulting. His experience in quality control and project manager involved on-going, close-in, and punch-out inspections; managing testing and inspection or concrete, steel, site work, paving, utilities, MEP systems, roofing, and exterior wall assemblies. Chris has been an integral part of on-site conflict resolution through coordination with trades and clients. He has also performed HVAC and electrical commissioning and worked as Design Quality Control Manager for design-build contract and as a LEED Administrator.
