

Trent Mason Project Manager

CERTIFICATIONS

Lightening Protection Institute
LPI Inspector

OSHA 10 Hour Certification

Aerial & Scissor Lift Operator

Trent has more than ten years of construction and technical experience. He specializes in quality assurance consulting and architectural product testing. With a keen eye for detail, Trent has provided valuable insight to clients by identifying potential issues in design and quality during each phase of construction. He has also personally created and managed building envelope testing programs for several large, high-profile commercial projects. These testing programs focused on mock-up, water penetration, air infiltration, roof uplift, adhesion, and various other quality control tests.

As a project manager, Trent is primarily responsible for: quality assurance observations, forensics investigating, mock-up observation and testing, field and laboratory testing, development of lab standards, documents, templates, software, and equipment. He is also responsible for condition surveys of existing structures, field reports, development of design specifications and repair details, bidding services, and overseeing repairs.
